RING SIZING GUIDE

PRIOR TO PRINTING, ENSURE THAT SCALE IS SET TO 100% ON YOUR PRINT DIALOG BOX.

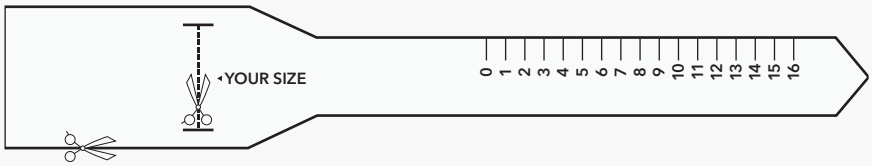
Measure the below bar. It should be 2.5" when printed.

OPTION 01

MEASURE WITH OUR PAPER SIZER

Measure your finger itself with our printable paper sizer.

Print, cut out, and wrap around the largest part of the finger. The point where the ends overlap will mark the ring size.



OPTION 02

START WITH A RING THAT ALREADY FITS

You found a ring that already fits the correct finger – great! What now?

- Print our ring diameter chart and closely match the ***inside edge*** of the ring to the right diameter.
- For an exact size, we recommend getting sized by a Helzberg Diamonds professional in store.
